

ALEX SEBASTIYAN

Mobile Architect

- Bengaluru
- +91 9894384672
- s.alexfrancis@gmail.com

Certification

Android Certified Application Developer

- Android ATC

Certified SAFe 4 Agilist

- Scaled Agile Inc.

Technological Proficiencies

- ◆ Android
- ◆ iOS
- ◆ React Native
- ◆ Swift / Kotlin
- ◆ Java

Awards

- ◆ NGMS Star Award
- ◆ POTB Award
- ◆ Platinum Award for Passion
 - Cognizant Technology Solutions
- ◆ Excellence Award
 - PayFlex Business
- ◆ Elephant Award
 - PayFlex Client
- ◆ Associate of Quarter
 - Cognizant Technology Solutions

Summary

Experienced **Mobile Architect with over 15 years of expertise** in designing and delivering scalable, high-performance mobile applications across iOS and Android platforms. Successfully developed 15+ mobile apps and led cross-functional teams to implement robust, secure, and user-friendly solutions. Proficient in end-to-end architecture design, encompassing technical requirements, system deployment, and maintenance. Skilled in collaborating with clients and stakeholders to align business objectives with technical strategies, ensuring the scalability and long-term success of mobile products.

Roles & Responsibilities

- ◆ Designed and implemented scalable mobile architectures for iOS and Android, ensuring high performance, security, and seamless integration with backend services.
- ◆ Led cross-functional teams in Agile environments, providing technical leadership, conducting code reviews, and setting up CI/CD pipelines for efficient mobile app releases.
- ◆ Optimized mobile applications for speed, responsiveness, and battery efficiency, while incorporating industry-standard security practices (OAuth, biometric authentication).
- ◆ Developed cross-platform mobile solutions using frameworks like React Native, reducing development time and ensuring compatibility across devices.
- ◆ Acted as a technical liaison between clients and stakeholders, translating business needs into mobile solutions and ensuring compliance with data privacy regulations (HIPAA).
- ◆ Researched and integrated emerging technologies such as AI/ML into mobile applications, enhancing user experience and driving innovation.
- ◆ Created detailed technical documentation and established mobile development best practices, ensuring maintainability, scalability, and alignment with industry standards.

Competencies

- | | | |
|----------------|----------------------|-----------------------------|
| ◆ Android | ◆ MySQL | ◆ Crashlytics |
| ◆ iOS | ◆ ROOM | ◆ REST APIs |
| ◆ Kotlin | ◆ Android Components | ◆ Scrum |
| ◆ Swift | ◆ Gradle | ◆ MVVM, MVC |
| ◆ SwiftUI | ◆ RxJava / RxAndroid | ◆ Agile Methodology |
| ◆ React Native | ◆ Dagger 2 / Hilt | ◆ GitHub, Git, JIRA, TFS |
| ◆ JavaScript | ◆ Jenkins, TeamCity | ◆ ProGuard, Metaforic |
| ◆ Java | ◆ Retrofit | ◆ Elastic Search Logging |
| ◆ PHP | ◆ JSON & XML | ◆ Analytics (Adobe, Google) |

Education

- | | |
|-------------|---|
| 2007 - 2010 | Master of Computer Application.
Madurai Kamaraj University Madurai. |
| 2004 - 2007 | Bachelor of Science in Computer Science
VHNSN College of Arts & Science, Virudhunagar, affiliated to Madurai Kamaraj University. |

Professional Experience

- | | |
|----------------------|---|
| JUL 2020 - Present | Mobile Architect
Nextgen Healthcare |
| APR 2019 - JUL 2020 | Product Lead
Logistimo India Pvt Ltd. |
| JAN 2012 - MAR 2019 | Technology Lead
Cognizant Technology Solutions |
| MAY 2010 - DEC 2011. | Software Engineer
Clairvoyant Techno Solution |

Project Experience

JUL 2020 -
Present

NGMS Product

Nextgen Healthcare

Role - Mobile Architect

Responsibilities:

- ◇ **Mobile Strategy & Architecture:** Design and implement scalable, high-performance mobile architectures for iOS and Android applications, ensuring best practices, security, and maintainability.
- ◇ **Technical Leadership:** Guide development teams by providing architectural blueprints, coding standards, and best practices to optimize performance and code quality.
- ◇ **Cross-Platform & Native Development:** Lead the development of cross-platform and native applications using technologies such as Swift, Kotlin, React Native, JavaScript and other modern frameworks.
- ◇ **Cloud & Backend Integration:** Architect and integrate mobile applications with cloud services, APIs, and backend systems, ensuring seamless data synchronization and security.
- ◇ **Team & Stakeholder Collaboration:** Work closely with product managers, designers, developers, and business stakeholders to align technical solutions with business objectives.
- ◇ **Performance Optimization:** Analyze and optimize mobile applications for speed, efficiency, and battery consumption to enhance the user experience.
- ◇ **Security & Compliance:** Implement security measures such as data encryption, authentication, and compliance with industry standards like HIPAA, and OWASP Mobile Security.
- ◇ **CI/CD & Automation:** Set up and maintain continuous integration and deployment pipelines to ensure smooth and automated app releases.
- ◇ **Code Reviews & Mentorship:** Conduct code reviews, provide technical mentorship to junior developers, and promote knowledge-sharing across teams.
- ◇ **Innovation & Emerging Technologies:** Stay updated with the latest trends in mobile technology, evaluating and implementing new tools, frameworks, and methodologies to enhance application development.

Technologies - Android, Kotlin, iOS, Swift, SwiftUI, React Native, JavaScript, Java, Retrofit, Dagger2/Hilt, MVVM, RxJava, Room DB, TeamCity, Bitrise, BitBucket

SEP 2019 -
JUL 2020

Snapshot Product

Logistimo India Pvt Ltd.

Role - Product Lead & Engineer

Responsibilities:

- ◇ **Product Lead:** Define app vision, roadmap and feature prioritization.
- ◇ **Planning & Requirement Analysis:** Gather requirements, design system architecture and select tech stack.
- ◇ **Mobile Developer:** Develop frontend (Android), integrate APIs, and ensure app security.
- ◇ **CI/CD:** Setup CI/CD, automate deployments.
- ◇ **App Monitoring & Maintenance:** Monitor performance, fix bugs, release updates and handle user feedback.

Technologies - Android, Kotlin, Java, Retrofit, Dagger2, RxJava, Room DB, MVVM, Jenkins, SonarQube, GitHub

Tusker/Customer Product

Logistimo India Pvt Ltd.

Role - Product Lead & Engineer

Responsibilities:

- ◇ **Product Lead:** Define app vision, roadmap and feature prioritization.
- ◇ **Planning & Requirement Analysis:** Gather requirements, design system architecture and select tech stack.
- ◇ **Mobile Developer:** Develop frontend (React Native, Android, iOS), integrate APIs, and ensure app security.
- ◇ **CI/CD:** Setup CI/CD, automate deployments.
- ◇ **App Monitoring & Maintenance:** Monitor performance, fix bugs, release updates and handle user feedback.

Technologies – React Native, JavaScript, Redux, Jenkins, SonarQube

FEB 2017 - MAR 2019	PayFlex Mobile App Aetna. Role - Android Technical Lead Responsibilities: ◇ Architecture Design in Android: Define and implement scalable, maintainable, and modular mobile app architecture. ◇ Research & Proof of Concept (POC): Conduct research on new technologies, frameworks and best practices. ◇ Technical Lead: Leading the big team. Guide, mentor, and manage a team of developers, ensuring best practices and coding standards. ◇ Cost Estimation: Analyze project requirements, estimate development costs, and ensure budget compliance. ◇ CI/CD: Setup CI/CD, automate deployments. ◇ Publish to playstore: Handle the app release (Alpha/Beta) process, including compliance with Google Play Store guidelines and version management. ◇ App Monitoring & Maintenance: Monitor performance, fix bugs, release updates and handle user feedback. Technologies - Android, Kotlin, Java, Jenkins, MVVM, TFS, GitHub Google Playstore Link
SEP 2015 - JAN 2017	Ameriprise Financial App Ameriprise Financial Inc. Role - Android Technical Lead Responsibilities: ◇ Technical Lead: Leading the team. Guide, mentor, and manage a team of developers, ensuring best practices and coding standards. ◇ Mobile Developer: Develop Android, integrate APIs, and ensure app security. Technologies -Android, Java, GitHub, SQLite Playstore Link
APR 2015 - SEP 2015	BoA Make Whole Project Nationstar Mortgage. Role - Senior Developer Responsibilities: ◇ Research & Proof of Concept (POC): Conduct research on new technologies (Sensor), frameworks and best practices. Technologies - Android SDK, Sensor Components
MAR 2013 - APR 2015	Facilities Insights Rentokil Initial. Role: Senior Developer Responsibilities: ◇ Develop, test and maintain backend logic using PHP and the Codeigniter framework. ◇ Write clean, scalable and well documented code. Technologies - PHP, Codeigniter, MySQL
MAY 2012 - MAY 2013	Money Network Mobile Application First Data USA. Role - Android Developer Responsibilities: ◇ Develop, test and maintain Android application using Java. ◇ Write clean, scalable and well documented code. Technologies - Android, Eclipse IDE, GCM Notification Playstore Link
OCT 2011 - DEC 2011	Music Season – The ARTery AJS – Abiraame Jewelers Anandha Bhavan - Restaurant Lawry's - Restaurant Sanjay Mobile – Carnatic Musician Sticky – Candy Shop Role - Team Lead / Developer Technologies - Android, Eclipse IDE, PHP, MySQL
